November 2007

During the 2007 Legislative Session, the Oregon Community College Association tracked hundreds of pieces of legislation that could impact the funding, programs, personnel, operations and governance of Oregon's community colleges.

The *Oregon Community College Association Legislative Report* provides you with an overview of the major legislation that emerged this session. The bills are organized into sections corresponding to major areas of interest, such as Funding, Programs and Operations. Each section includes bills that passed as well as some bills that failed. The bills that failed are included to illustrate an important or continuing trend, which community colleges should note.

Additional information is available by contacting the Oregon Community College Association at (503) 399-9912 or on the Legislature's website (www.leg.state.or.us). The Legislature's website provides access to the text of bills, the staff and fiscal analyses of bills and archival audio recordings of session hearings and floor sessions. If you have any questions or comments regarding the 2007 Legislative Session or this report please feel free to contact the Oregon Community College Association at any time.

We also extend a special recognition and thanks to the individuals at every community college who responded quickly and faithfully to our requests for information during this session. Your expertise and time make it possible for us to effectively represent the interests of Oregon's community colleges.

Connie Lee
President
Oregon Community College Association
